PROFESSIONAL SUMMARY

Computer Science student building front-end development skills in HTML, CSS, JavaScript, and Bootstrap through the Digital Egypt Pioneers Initiative (DEPI), with hands-on practice building pages from scratch. Currently expanding skills into React.js and Git/GitHub. Combines this technical foundation with professional experience in data entry and social media coordination, plus over a decade of volunteer team leadership. Seeking a front-end developer role; open to remote, part-time, or contract work.

EDUCATION

B.Sc. Computer Science (In Progress) – Arab Open University Class of 2025

- Relevant coursework: Java, Python

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap (Intermediate)

Currently Learning: React.js, Git/GitHub

Tools: VS Code

Professional Skills: Team Leadership, Time Management, Problem-Solving, Organization

PROJECTS

Bootstrap Practice Pages DEPI Course Task, In Progress

Technologies: HTML, CSS, Bootstrap

- Built multiple web pages from scratch using Bootstrap as part of DEPI coursework, practicing the framework's grid system and UI components.
- Structured page layouts and styling independently rather than starting from a pre-built template.
- Preparing to test pages for mobile responsiveness and publish the project on GitHub.

EXPERIENCE

Data Entry & Social Media Assistant – Dolphin Sea Travel 2024 – Present

Cairo, Egypt (Hybrid – Online & On-site)

- Entered and maintained customer and booking data for the company.
- Created social media posts published on the company's platforms.

● Team Supervisor, Sadeeqi Group (2014 – Present) – 10+ years coordinating volunteer teams and community events.

TECHNICAL TRAINING

Front-End Web Development Track – Digital Egypt Pioneers Initiative (DEPI) Jul 2026 – Present

- Building front-end development skills in HTML, CSS, JavaScript, and Bootstrap through structured course modules.
- Currently expanding into React.js and Git/GitHub as part of the ongoing track.
